**QUESTION 1**

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series.

Information and details provided in a question apply only to that question.

You have a computer named Computer1 that runs Windows 10. Computer1 has the Windows Assessment and Deployment Kit (Windows ADK) installed.

You create the working directories for the customization of a Windows Preinstallation Environment (Windows PE) image.

You need to modify the regional setting used in Windows PE.

What should you do first?

- A. Mount the Install.wim file.
- B. Mount the Boot.wim file.
- C. Modify the Winpeshl.ini file.
- D. Create an answer file.
- E. Modify the Windows.ini file.
- F. Create a provisioning package.
- G. Load a catalog file (.clg).
- H. Create a cabinet file (.cab).

Correct Answer: B

QUESTION 2

You create the working directories for a custom Windows Preinstallation Environment (Windows PE) image.

You need to create an ISO image of Windows PE that can be written to a DVD. The ISO image must be bootable.

Which command should you use?

- A. bcdboot.exe
- B. oscdimg.exe
- C. bootsect.exe
- D. etfsboot.exe

Correct Answer: B

QUESTION 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this sections, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are building a new image of Windows 10 that contains a push-button reset solution.

You need to test whether push-button reset works as expected.

Solution: You start the computer from the installation media for Windows 10. You click Troubleshoot, and then you click System Image Recovery.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B

QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this sections, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are building a new image of Windows 10 that contains a push-button reset solution.

You need to test whether push-button reset works as expected.

Solution: From Windows 10, you press and hold the SHIFT key, and then you restart the computer. After the computer restarts, you click Troubleshoot, and then you click Reset this PC.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A

QUESTION 5

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series.

Information and details provided in a question apply only to that question.

You have a computer named Computer1 that runs Windows 10. Computer1 has the Windows Assessment and Deployment Kit (Windows ADK) installed.

You create the working directories for the customization of a Windows Preinstallation Environment (Windows PE) image.

You need to add scripting support to Windows PE.

What should you do first?

- A. Mount the Install.wim file.
- B. Mount the Boot.wim file.
- C. Modify the Winpeshl.ini file.
- D. Create an answer file.
- E. Modify the Windows.ini file.
- F. Create a provisioning package.
- G. Load a catalog file (.clg).
- H. Create a cabinet file (.cab).

Correct Answer: B
