QUESTION 1

Click the Exhibit button.

A customer has a Communication Server 1000 RIs. 7 x system with System Manager / Unified Management (UCM) enabled. They have requested the addition of two new UCM Administrator User with the limited ability to provision telephones at each site. Refer to the exhibit for the roles current existing in the system.

Which action can the Network Administrator take to add these new accounts per the customer's requirements?

- A. Change the built-in MemberRegister role to add the permissions required to allow telephone configuration.
- B. Assign the new users to the built-in NetworkAdministrator role because it has the permissions that allow telephone configuration.
- C. Change the built-in role Patcher role to remove all permissions except those that allow telephone configuration.
- D. Add a new TelephonyAdmin role with the specific permissions required to allow telephone configuration.

Correct Answer: D

QUESTION 2

An administrator is programming an NRS for the first time on a new Communication Server 1000 system

RIS. 7.0 system. When attempting to add the Service Domain, it cannot be added as the Add button is grayed out in the NRS.

Which task should you perform to resolve this issue?

- A. reinstall the Signaling Server Software
- B. reinstall the NRS software
- C. switch from Standby database to Active database
- D. switch from Active database to Standby database

Correct Answer: D

QUESTION 3

A company recently deployed IP telephones in its Call Center. During peak traffic conditions, callers receive an overflow tone and calls are blocked.

Zone Number = 1 Zone Intent = MO Intrazone Traffic = Best Quality Interrone Traffic = Best Bandwidth Resource Type = Shared

Which programming change is recommended to provide dedicated Digital Signal Processor (DSP) resources to Contact Center IP telephones?

- A. Change Zone Intent VTRK
- B. Change Resource Type to Private
- C. Change Interzone to BestQuality
- D. Change InterzoneTraffic to Best Bandwidth

Correct Answer: B

QUESTION 4
