QUESTION 1

This question requires that you evaluate the underlined text to determine if it is correct.

Static positioning places an element at specific coordinates relative to the page or the element's container.

Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed
- B. Absolute positioning
- C. Relative positioning
- D. Fixed positioning

Correct Answer: C

QUESTION 2

You are creating a home page for Blue Yonder Airlines. The page will use JavaScript. If a browser does not support JavaScript, the following message must be displayed:

Your browser does not support JavaScript!

For the Blue Yonder Airlines home page, match the metadata element to the content or attribute-value pair. To answer, drag the appropriate metadata element from the column on the left to its content or attribute-value pair on the right. Each

metadata element may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Select and Place:

Answer Area

<code><script></code>	<code><meta></code>	<code>href= "style.css"</code>	<input type="text"/>
<code><title></code>	<code><noscript></code>	<code>src= " _js/form.js"</code>	<input type="text"/>
	<code><base></code>	Blue Yonder Airlines	<input type="text"/>
		Your browser does not support JavaScript!	<input type="text"/>

Correct Answer:

Answer Area

<input type="text"/>	<input type="text" value="<meta>"/>	href= "style.css"	<input type="text" value="<base>"/>
<input type="text"/>	<input type="text"/>	src=" _js/form.js"	<input type="text" value="<script>"/>
<input type="text"/>	<input type="text"/>	Blue Yonder Airlines	<input type="text" value="<title>"/>
<input type="text"/>	<input type="text"/>	Your browser does not support JavaScript!	<input type="text" value="<noscript>"/>

QUESTION 3

You are designing a website for Margie's Travel. The website uses external stylesheets.

You need to create a style that centers all h1 elements on the page.

How should you complete the code? To answer, drag the appropriate code segment to the correct location in the code. Each code segment may be used once, more than once or not at all. You may need to drag the split bar between panes

or scroll to view content. text-align center h1 = : ; .h1

Select and Place:

Answer area

<input type="text" value="text-align"/>	<input type="text" value=":"/>	<input type="text"/>	{	<input type="text"/>	<input type="text"/>	<input type="text"/>	}
<input type="text" value="center"/>	<input type="text" value=";"/>	<input type="text"/>					
<input type="text" value="h1"/>	<input type="text" value=".h1"/>	<input type="text"/>					
<input type="text" value="="/>	<input type="text"/>	<input type="text"/>					

Correct Answer:

Answer area

<input type="text"/>	<input type="text"/>	h1	{	text-align	:	center	;	<input type="text"/>	}
<input type="text"/>	<input type="text"/>	<input type="text"/>							
<input type="text"/>	<input type="text" value=".h1"/>	<input type="text"/>							
<input type="text" value="="/>	<input type="text"/>	<input type="text"/>

QUESTION 5

You are creating an HTML document that displays a list of news articles.

The list has the following requirements:

Each article must be its own semantic block.

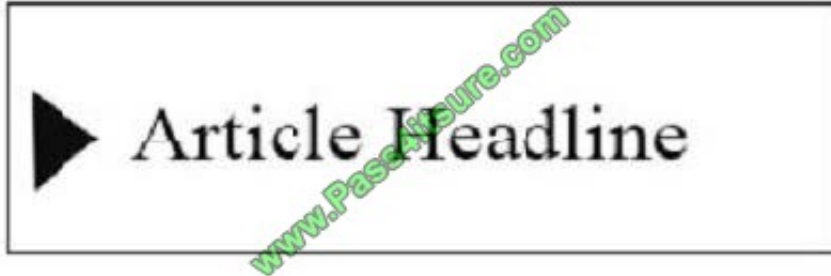

Each article must have a headline.

Each article must have a section that contains its content.

For browsers that support the feature, the content must be hidden until the user clicks to reveal it.

The following shows how the article displays when the article content is hidden:

The following shows how the article displays when the article content is displayed:

You need to create the markup for an article.

How should you complete the markup? To answer, select the appropriate markup segments in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Diagram illustrating the correct XML structure for an article:

- Root element: `<article>`
- Child elements: `<details>` and `<summary>`
- Text content: `<p> This is the article content. </p>`

The diagram shows the following structure:

```
<article>  
  <details>  
  <summary>  
</article>
```

The text content is placed between the opening and closing `<article>` tags:

```
<article>  
  <details>  
  <summary>  
<p> This is the article content. </p>  
</article>
```

The diagram also shows the text "Article Headline" and a dropdown menu with options: `<article/>`, `<details>`, and `<summary/>`.

Correct Answer:

Answer Area

The diagram illustrates the correct HTML structure for an article. It consists of five dropdown menus, each containing a list of HTML tags. The first three dropdowns show the opening tags: `<article>`, `<details>`, and `<summary>`. The fourth dropdown, labeled "Article Headline", shows the closing tags: `<article/>`, `<details>`, and `<summary/>`. The fifth dropdown shows the closing tags: `<article/>`, `<details>`, and `<summary/>`. The text `<p> This is the article content. </p>` is placed between the fourth and fifth dropdowns. A large green watermark "www.Pass4itSure.com" is overlaid diagonally across the diagram.
