QUESTION 1

You have been asked to create footage to playback on several mobile devices. Which action should you take when designing your project?

- A. use long fades, pans, and zooms
- B. add noise and motion to your composition
- C. use a lower frame rate for your composition
- D. shoot wide shots instead of close, tight shots

Correct Answer: C

QUESTION 2

You have been asked to prepare an animation that will be published on a mobile device. Which three steps should you take to get the most efficient result? (Choose three.)

- A. use cuts and fast transitions
- B. use zooming in and out or fades and dissolves
- C. preview the final movie using Adobe Device Central
- D. use a lower frame rate for your composition (15 -22 fps)
- E. convert your project to 32bpc for maximum color space
- F. work at half resolution to match the device's screen resolution

Correct Answer: ACD

QUESTION 3

You use Device Central to create After Effects compositions that match specific mobile phone models. An additional composition named Preview is also created. What is the main purpose of this Preview composition?

- A. to test Flash compatibility
- B. to mimic the physical appearance of the mobile phone
- C. to test the screen size, color depth, and sound capabilities of each mobile phone model
- D. to view your master composition in the context of several mobile devices at the same time

Correct Answer: D

QUESTION 4

You have opened a template project because you like several effects used in the project. What would help you determine how the effects were created?

- A. press F1
- B. press UU
- C. View > Show Layer Controls
- D. Composition > Composition Settings

Correct Answer: B

QUESTION 5

Click the Exhibit button.

What does a small black square on a marker indicate?

- A. The marker contains XMP metadata.
- B. The marker has an extended duration.
- C. The marker contains Clip Notes comments.
- D. The marker has cue-point data ready for Flash Video export.

Correct Answer: D
