QUESTION 1

On an OS X Mavericks computer with OS X Server installed, you have created a share point named "Finance Dept." that contains a folder named "Reports." The permissions for both are shown below.

Finance Dept share point permissions:

User or Group	Permission
admin	Read & Write
finance	Read Only
Others	None

Reports folder permissions:

User or Group	Permission
admin	Read & Write
finance	Read & Write
Others	None

Correct Answer: Chris is not a member of the Finance group, but you would like her to have access to the Finance Dept. share point. In Server app, you select the server, click the Storage tab, select the Finance Dept. folder, and modify its permissions as shown below.

QUESTION 2

What is the minimum amount of RAM required to install and run OS X Server on an OS X Mavericks computer?
