**QUESTION 1**

The data going into the target Sequential Files stage is range-partitioned and sorted. Which technique method would be the most efficient to create a globally sorted target sequential file?

- A. Select an in-stage sort in the final Sequential File stage.
- B. Select the Ordered collector method for the final Sequential File stage.
- C. Select the Sort Merge collector method for the final Sequential File stage.
- D. Insert a Funnel stage before the final Sequential File stage and select Sequence as Funnel Type.

Correct Answer: B

QUESTION 2

Which Oracle Connector stage property can be set to tune job performance?

- A. Array size
- B. Memory size
- C. Partition size
- D. Transaction size

Correct Answer: A

QUESTION 3

In your ETL application design you have found several areas of common processing requirements in the mapping specifications. These common logic areas found include: code validation lookups and name formatting. The common logic areas have the same logic, but the jobs using them would have different column metadata. Choose the action that gives you the best reusability design to effectively implement these common logic areas in your ETL application?

- A. Create parallel routines for each of the common logic areas and for each of the unique column metadata formats.
- B. Create separate jobs for each layout and choose the appropriate job to run within a job sequencer.
- C. Create parallel shared containers and define columns combining all data formats.
- D. Create parallel shared containers with Runtime Column Propagation (RCP) ON and define only necessary common columns needed for the logic.

Correct Answer: D

QUESTION 4

In a Transformer, which two mappings can be handled by default type conversions. (Choose two.)

- A. Integer input column mapped to raw output column.
- B. Date input column mapped to a string output column.
- C. String input column mapped to a date output column.
- D. String input column mapped to integer output column.
- E. Integer input column mapped to string output column.

Correct Answer: DE

QUESTION 5

Which two file stages allow you to configure rejecting data to a reject link? (Choose two.)

- A. Data Set Stage
- B. Compare Stage
- C. Big Data File Stage
- D. Lookup File Set Stage
- E. Complex Flat File Stage

Correct Answer: CE
