QUESTION 1

Which two DB2 objects can a view be derived from? (Choose two.)

- A. View
- B. Index
- C. Table
- D. Trigger
- E. Procedure

Correct Answer: AC

QUESTION 2

What mechanism is typically used to automatically update other tables, generate or transform values for inserted or updated rows, and perform tasks such as issuing alerts?

- A. Trigger
- B. Procedure
- C. Table function
- D. Scalar function

Correct Answer: A

QUESTION 3

Which two statements are true about foreign key constraints? (Choose two.)

- A. The foreign key constraint columns must be supported by an index.
- B. The foreign key constraint columns must be defined as NOT NULL.
- C. The number and data types of foreign key constraint columns must match the parent key.
- D. The columns of one foreign key constraint cannot be used in another foreign key constraint.
- E. To define a foreign key constraint there must be an associated primary key or unique key in the same or different table.

Correct Answer: CE

QUESTION 4

A table named STATES was created as follows:

```
CREATE TABLE states  
(state_cd CHAR(2) NOT NULL,  
state_desc CHAR(20));  
CREATE UNIQUE INDEX ndx1 ON states (state_cd);
```

If the following ALTER statement is executed:

```
ALTER TABLE states ADD PRIMARY KEY (state_cd);
```

What will happen?

- A. An error will be returned and the operation will fail.
- B. A warning will be returned and the unique index INDX1 will become the index for the primary key.
- C. The primary key will be successfully added and the unique index INDX1 will be dropped and recreated as the primary key index.
- D. The primary key will be successfully added, the unique index INDX1 will be dropped, and a new index will be created for the primary key.

Correct Answer: B

QUESTION 5

Which SQL statement would be used to retrieve only salaries that are greater than \$100,000.00 from a table named EMPLOYEE?

- A. SELECT * FROM employee WHERE salary
- B. SELECT salary FROM employee WHERE salary > 100000
- C. SELECT salary FROM employee WHERE salary > 100,000.00
- D. SELECT * FROM employee WHERE salary GREATER THAN 100000

Correct Answer: B
