QUESTION 1

Which statement is true about changing a project\\'s key?

A. Users have to update issue filters referencing the old project key.

B. Unshared project schemes will be automatically renamed to reflect the new project key.

C. External links to issues in that project need to be updated to match the new project key.

D. The old project key can be reused for a new project.

E. Internal Jira links referencing an old key will continue to work.

Correct Answer: E

QUESTION 2

Your marketing company wants to evaluate Jira and purchased a 10-user license. A frequently changing group of key stakeholders ?both internal employees and external customers ?will participate in the evaluation.

If the evaluation is successful the company wants all 50 employees to start working with the tool.

You have to manage the frequently changing group of stakeholders and need to make sure only the intended users participate in the evaluation.

How should you meet these requirements?

A. Create and manage the users for stakeholders manually in the internal directory.

B. Connect Jira to your internal LDAP directory and whitelist the IPs of stakeholders.

C. Enable public signup and CAPTCHA but limit account creation to stakeholders.

D. Disable public signup and grant all project permissions to Group Anyone.

Correct Answer: D

QUESTION 3

You have a project with several issue types, associated unique workflows, and a number of components.

The decision has been made to have all new issues assigned automatically.

To that end, you\\'ve set default assignee(s) for the project lead, component leads, and removed the

Assignee field from the screens associated with the Create Issue operation.

One of the issue types is still being created without an Assignee.

What is the most likely cause of the problem?

A. The issue type\\'s field configuration for Component/s is not set to Required.

B. The default assignee for the issues\\' component is still set to Unassigned.

C. The post function Assign to Lead Developer is missing in the create transition.

D. Users creating this issue type do not have the Assign Issue permission.

E. The assignee is being set to Unassigned in the first post-function of the create transition.

Correct Answer: E

QUESTION 4

A team of technical writers works in the WRITE project. The project uses a single, shared workflow.

To better match the team\\'s way of working they request a workflow change:

The initial status of their project\\'s workflow should be changed from Open to Awaiting Inspiration.

You navigate to the Workflows section of the administration, update the Name of the status in the workflow

designer and publish your change.

What are two implications of this change? (Choose two.)

A. The workflow scheme for the WRITE project will need to be published before the change takes effect.

B. Awaiting Inspiration will be created as a new Status in Jira.

C. Transitions to the Awaiting Inspiration status will fail until the post functions for those transitions are updated.

D. Filters and Gadgets that referred to the Open status by name will be broken.

E. The Open Status will be changed to Awaiting Inspiration in all workflows using that status.

Correct Answer: AB

QUESTION 5

One of your project owners is struggling with reporting and sorting issues in her project. Currently, the classification of the issues is no more useful than a list of things that need to be done.

The project owners would like to establish the following:

more classification of issues, so issues can belong to several classes the ability to edit classes a way to link a class to an owner

How would you help this project owner improve issue reporting and sorting?

A. Add a custom field of type Select List (multiple choices) for class, linked to a class-owner field.

B. Ensure the component field is available in the project and demonstrate how to use it.

C. Add a new labels field for the project, with labels containing the owner names.

D. Add a custom field of type Select List (cascading) with classes in the first tier and owners in the second tier.

E. Add a custom field of type Select List (multiple choices) for class, naming an owner in the options.

Correct Answer: E
