**QUESTION 1**

You manage multiple projects which share a notification scheme.

For the Issue Moved event, you want to notify only a particular individual.

That individual needs to be selected by other users.

Which value should be used for the Issue Moved event?

- A. Single User
- B. Developers project role
- C. User Custom Field Value
- D. Current User
- E. Component Lead
- F. Single Email Address

Correct Answer: A

For the issue move event, it will always notify the project which the issue is been moved to if you configure a single user in the notification,

QUESTION 2

You need a new project to track Software Defects.

The entire setup should be identical to the Hardware Defect project.

You ask your Jira administrator to create a new project with a shared configuration, and use the Hardware Defect project as the source.

Which three elements will you need to manually configure to achieve an identical setup? (Choose three.)

- A. Project description
- B. Security levels
- C. Screens
- D. Components
- E. Versions
- F. Priorities

Correct Answer: ADE

QUESTION 3

View the extract of a Jira Software Scrum project's permission scheme shown.

Permission	Granted to
Administer Projects	Project role: Administrators
Browse Projects	Application access: JIRA Software
Close Issues	
Resolve Issues	
Transition Issues	Application access: Any logged in user

The project uses a simplified workflow.

Who can drag and drop issues to the Closed column on the board?

- A. only the board administrator
- B. any user with Jira Software application access
- C. nobody
- D. any logged in user
- E. only members of the Administrators project role

Correct Answer: B

QUESTION 4

Which two can project administrators associate with project roles? (Choose two.)

- A. Security levels
- B. Application access
- C. Global permissions
- D. Groups
- E. Individual users
- F. Project permissions

Correct Answer: AD

QUESTION 5

Your coworkers, Jill and Dave, want you to create a filter and a corresponding filter subscription to run every morning at 8 AM.

For the query result, they each want to receive a list of only their own issues that were assigned to them in the last 8 hours.

Which JQL query will you use in the filter?

- A. assignee in (Jill,Dave) AND created >= -8h
- B. assignee changed TO currentUser() AFTER startOfDay()
- C. assignee changed TO currentUser() >= -8h
- D. assignee changed TO (Jill,Dave) >= -8h
- E. assignee = Jill OR assignee = Dave AND created AFTER startOfDay()

Correct Answer: B
