QUESTION 1

Fixing a single bug requires the involvement of three teams: Designers, Developers and Testers.

Currently, all the fields that are needed by each of the three teams are together on a single project screen. As a project administrator, how can you help the teams to easily identify the fields they need?

- A. Request a separate issue type and issue type scheme for each team.
- B. Use the card colors feature to color-code the fields by team.
- C. Make fields available only for the team that needs them.
- D. Request individual team screens to be associated with the Edit Issue operation.
- E. Group individual fields by team and place them on separate tabs.

Correct Answer: D

QUESTION 2

There is a condition on the Start Progress transition in your workflow, which restricts the transition to users in the Developers role only.

All other transitions are available to all users.

There is a new requirement to allow all users to execute the Start Progress transition.

Your workflow is not shared.

As a project administrator, what should you do to meet the requirement?

- A. Edit the existing Start Progress transition to remove the condition.
- B. Delete the existing Start Progress transition and replace with a new one.
- C. Edit the existing Start Progress transition to remove the validator.
- D. Update the Transition Issues permission in the permission scheme.

Correct Answer: C
