QUESTION 1

A merchant running Adobe Commerce for their charity website considers modifying their top menu. They want to include non-category menu items and have up to four levels of sub-items on top level items for both categories and non-categories. They provide a mockup and ask which parts require customization.

Which two areas requiring customization would the Business Practitioner identify after evaluating the mock-up? (Choose two.)

A. CMS pages nesting - only categories can be nested using native features.

B. Item positions require customization - non-category menu items can only be added after categories using native features.

C. The Patreon link requires customization - native features don\\'t allow links pointing to different domains.

D. Contact Form link requires customization - it is not possible to include that feature there because its corresponding module does not allow this.

Correct Answer: BC
