QUESTION 1

You are using the Magento B2B module and you are requested to change the catalog type in your Magento store from custom to public.

What are the three results from the change?

Choose 3 answers

- A. Original companies are reassigned to the replacement
- B. All new catalogs are shared
- C. Only guest visitors will see this catalog
- D. The existing public shared catalog will be converted to a custom catalog
- E. This cannot be reverted back to a custom catalog

Correct Answer: ADE

QUESTION 2

A merchant is planning a campaign for each of their 500 partners. Each will receive a unique set of prices for a catalog of 10,000 products. How will performance be affected if each partner has their own website?

- A. The re-index process will become very slow
- B. The cache will consume all available disk space
- C. The sort by price feature will become very slow
- D. Static content deployment time will increase considerably

Correct Answer: B

QUESTION 3

The merchant in the United States plans to launch a B2B website with a unique catalog structure. The B2B website must be available to Canada and Mexico.

Canada and Mexico will utilize a new payment gateway. United States customers will have different pricing than Canada and Mexico.

What is the minimum number of combinations necessary to add accomplish the requirements?

- A. Three websites three store views
- B. website, one store, three store
- C. two stores, three store views

D. One website, two stores three store views

Correct Answer: A

QUESTION 4

A merchant plans to migrate product data from Magento 1 to Magento Commerce. During your analysis of a merchant's existing product data structure, you notice they have created multiple custom product attributes to manage the translation

of color options across their websites.

You recommend utilizing a single custom product attribute to manage their color options

In addition to setting up the attribute, what must be done?

- A. Change the attribute scope to store view so the values can be managed separately for each language.
- B. Add all possible attribute values in each of the languages to the attribute.
- C. Create different attribute sets, one for each language and associate the attribute with its values to each,
- D. Add a default set of attribute values, and add store view specific labels to both the attribute and its values for the other two languages

Correct Answer: D

QUESTION 5

You are managing a project to launch a new Magento instance to target customers in the UK Spain and France. Customer will access the sites with different top-level domain names, such as oo.uk.es and f. All websites must be localized.

Products will use prices in EUR or GBP depending on the country.

UK uses a local carrier for delivery while Spain and France use a global carrier.

What is the minimum number of combination to configure this project?

- A. One website, three stores, three store views
- B. One website, one store, three store views
- C. Three websites, three stores, three store views
- D. Two website, two stores, three store views

Correct Answer: B
