**QUESTION 1**

Universal Containers is launching a Community to drive their channel sales. The requirements are as follows: • Integration with a Back-Office Legacy System that supports API-Level Integration and Salesforce Connect. This integration does not exist today. • Integration with a pricing and quoting tool. This integration exists today for internal users in the Salesforce org. • External partner users must be able to configure the quote using the pricing and quoting tool from the Community. • The pricing and quoting tool must support Community users. • Universal Containers owns licenses for Salesforce Connect. What are the two most efficient ways for a Salesforce Admin to accomplish this task? Choose two answers

- A. Integrate the Back-Office Legacy System using custom code development.
- B. Integrate the pricing and quoting tool by configuring external users to make it available in the Community
- C. Integrate the Back-Office Legacy System using Salesforce Connect
- D. Integrate the pricing and quoting tool by creating custom code to make it available in the Community

Correct Answer: BC

QUESTION 2

What are the four stages of the Community Roll-out framework?

- A. Plan > Develop > Test > Review
- B. Design > Implement > Grow > Review
- C. Create > Communicate > Design > Implement
- D. Analyse > Design > Implement > Maintain
- E. Establish > Manage > Measure > Engage

Correct Answer: E

QUESTION 3
