**QUESTION 1**

An exclusive provider organization (EPO) operates much like a PPO. However, one difference between an EPO and a PPO is that an EPO

- A. Is regulated under federal HMO legislation
- B. Generally provides no benefits for out-of-network care
- C. Has no provider network of physicians
- D. Is not subject to state insurance laws

Correct Answer: B

QUESTION 2

One way in which health plans differ from traditional indemnity plans is that health plans typically

- A. provide less extensive benefits than those provided under traditional indemnity plans
- B. place a greater emphasis on preventive care than do traditional indemnity plans
- C. require members to pay a percentage of the cost of medical services rendered after a claim is filed, rather than a fixed copayment at the time of service as required by indemnity plans
- D. contain cost-sharing requirements that result in more out-of-pocket spending by members than do the cost-sharing requirements in traditional indemnity plans

Correct Answer: B

QUESTION 3

Janet Riva is covered by a indemnity health insurance plan that specifies a \$250 deductible and includes a 20% coinsurance provision. When Ms. Riva was hospitalized, she incurred \$2,500 in medical expenses that were covered by her health plan. She incurred

- A. \$1,750
- B. \$1,800
- C. \$2,000
- D. \$2,250

Correct Answer: B

QUESTION 4

Advantages of EDI over manual data management systems

- A. Speed of data refer
- B. Loss of data integrity
- C. All of the above
- D. None of the above

Correct Answer: B

QUESTION 5

One characteristic of disease management programs is that they typically

- A. focus on individual episodes of medical care rather than on the comprehensive care of the patient over time
- B. are used to coordinate the care of members with any type of disease, either chronic or nonchronic
- C. focus on managing populations of patients who have a specific chronic illness or medical condition, but do not focus on patient populations who are at risk of developing such an illness or condition
- D. use clinical practice processes to standardize the implementation of best practices among providers

Correct Answer: D
