### QUESTION 1

The function of a wire gauge is to \_\_\_\_\_.

- A. measure if an old wire is still useable
- B. determine the type of wire if it is undetermined
- C. measure the electrical capacity of the wire
- D. measure thickness of wires

Correct Answer: D

---

### QUESTION 2

In the typical workshop, a plane is used for what purpose?

- A. removing thin strips of wood
- B. welding metal
- C. curing concrete
- D. loosening bolts

Correct Answer: A

A plane is a hand tool that has a sharp blade extending slightly below the bottom surface of the tool. The plane is pushed across the surface of a piece of wood and the blade removes a thin layer of wood from the surface.

---

### QUESTION 3
