QUESTION 1

Name two different ways to create a transparent proxy environment.

A. Using the PAC File or configuring WCCP

B. Configuring a Layer 4 switch or configuring the appliance in bridging mode

C. Configuring WCCP or using an automatic configuration script

Correct Answer: BC

QUESTION 2

Reporter creates reports that can be saved in the following formats (choose all that apply)

(a)

 CSV (comma-separated-values) to be opened by Excel (b) Adobe PDF

(c)

 HTML

(d)

 XML

A.

a, b and c only

B.

a, b and d only

C.

a, c and d only

D.

b, c and d only

E.

All of the above

Correct Answer: A

QUESTION 3

What kind of object should be selected from button New in the New Action dialogue in the VPM that returns a coaching or splash page?

A. Return Exception

B. Return Redirect

C. Notify User

D. Acceptable Usage Policy

Correct Answer: C

QUESTION 4

HTTP/1.1 supports pipelining - multiple related requests are written to a single TCP socket without waiting for the responses to come back -- i.e. the requests are done asynchronously in-parallel, instead of doing them sequentially as usual (see picture). Some Web clients such as Opera and Firefox with FasterFox plugin use HTTP pipelining. Assume that ProxySG Is deployed as a forward proxy listening on port 8080.

A. If an HTTP client tries to use pipelining, the use of proxy will break the HTTP protocol.

B. For those HTTP clients that use pipelining, the use of forward proxy would ensure faster response time compared to the clients that do not use pipelining.

Correct Answer: B

QUESTION 5

Which versions of SSL and TLS does the ProxySG support? (Select all that apply)

A. SSL version 1.0

B. SSL version 2.0

C. SSL version 3.0

D. TLS version 1.x

Correct Answer: AD
