QUESTION 2

A journalist would like to analyze four short sentences captured and transcribed from verbal sound-bites from a political candidate. Is the IBM Watson Personality Insights service an appropriate technology to accomplish this goal?

- A. Yes, the Personality Insights services will provide details about the personality of this political candidate
- B. Yes, because the journalist will combine the Personality Insight with Speech to Test service to accomplish this goal
- C. No, there is not enough text for the Personality Insights service to analyze and provide reliable results
- D. No, the Personality Insights service provides only information about the emotional stat of the candidate

Correct Answer: C
