Correct Answer: B

QUESTION 3

Which two work order internal statuses allows a user to record actual materials?

- A. APPR
- B. WSCH
- C. CLOSE
- D. WAPPR
- E. RESOLVE

Correct Answer: AC

QUESTION 4

What is the purpose of a ticket template?

- A. To save the details of a record
- B. To route a service request through a standard business process
- C. To efficiently populate common, high-volume service request fields
- D. To automatically apply Service Level Agreements to service requests

Correct Answer: B

QUESTION 5

A maintenance planner wants to manually generate a preventive maintenance (PM) work order within 60 days of its due date to ensure tools and materials can be gathered on time. How can this be accomplished?

- A. Enter the value within the Generate Work Orders dialog window.
- B. This is not possible because PM work orders cannot be generated until they are due.
- C. By changing the Frequency Units to days and then setting the frequency to the number of days required.
- D. By specifying the tools and materials required it will automatically detect that this PM's work order requires early generation.

Correct Answer: B
