QUESTION 1

A workflow is running and processing a large set of records.

To see the instance for the currently processing record, which link would be selected from the workflow builder tool?

- A. Where Used
- **B. List All Versions**
- C. List Active Instances
- D. List Current Instance

Correct Answer: C

QUESTION 2

What is a unique feature of the Admin Group security group in TRIRIGA?

A. The Admin Group is not visible in the TRIRIGA Security Manager by default and can only be accessed by using the System account.

B. Whenever a change is made to the Admin Group the permissions for all Modules are reset to Full Access and all business objects (BO) are reset to Inherit From Parent.

C. Permission settings for all Modules, BOs, Forms, Sections, and Actions in the Admin Group are defaulted to grant Full Access permissions and cannot be changed.

D. Members of the Admin Group are automatically allowed to access all kinds of records and most tools in the platform environment whether they have been granted explicit permission to do so or not.

Correct Answer: D

QUESTION 3
