**QUESTION 1**

A customer wants to be able to select elements from a subset for a fixed number of columns. Which statement is correct?

- A. Column labels are always static.
- B. Column labels can be dynamic by using a dynamic subset.
- C. Column labels can be dynamic by using a named subset.
- D. Column labels can be dynamic by using Excel functions.

Correct Answer: D

QUESTION 2

What is the difference between a TM1 Sandbox and a Personal Workspace?

- A. A Personal Workspace allows you to work in a private area where a Sandbox is shared.
- B. A Personal Workspace is a special default unnamed Sandbox where you begin your work.
- C. A Personal Workspace is shared.
- D. A Personal Workspace does not require you to commit your data as a Sandbox does.

Correct Answer: B

QUESTION 3

Which two functions have been optimized for the wide area network (WAN)? (Choose two.)

- A. SUBNM
- B. DBRW
- C. DBSW
- D. DBR

Correct Answer: BC

QUESTION 4

You have imported a sales data Cognos Insight local cube. You have years, quarters, and months in different dimensions. However, for your business requirements, it would be better to have a one-time dimension.

How would you change your model?

- A. Change the cube structure using the Group Dimension function.
- B. Create a new cube using the Group Dimension function.
- C. Change the cube structure using the Combine Dimension function.
- D. Create a new cube using the Combine Dimension function.

Correct Answer: B

QUESTION 5

An international company has an existing TM1 server application they use for planning, forecasting, and reporting. The corporate strategy department wants to share parts of this application with external consultants and partners. They decide to create Cognos Insight workspaces which includes data from this server application combined with additional analysis and content. They intend to distribute a single workspace ".cdd" file to the recipients.

How should they integrate the TM1 server data with additional content resulting in distributable Cognos Insight workspace files?

- A. Connect to the server using Distributed Mode, save the workspace and then modify as needed.
- B. Drag and drop TM1 cube views and subsets into the workspace, save the workspace and then modify as needed.
- C. Connect to the server using Connected Mode, save the workspace and then modify as needed.
- D. Import TM1 cube views and subsets, save the workspace and then modify as needed.

Correct Answer: D
