QUESTION 1

Jane is designing a form with three pages.Pages one and two are built with a wizard style interface, and page three is meant only for printing. How can Jane setup her form so that when the form is printed, only page three prints?

A. Jane should only put a print button on page three, then it will be the only one that shows up when the form is printed.

B. Jane must break up her form into two separate forms: one for the wizard and one for printing.

C. Jane can set the print settings property of page three to \\'on\\', and print settings property for pages one and two to \\'off\\'.

D. Jane would create a "keep" filter, specifying page three as the only page to print.

Correct Answer: D
