QUESTION 1

Which directory is the credstore.nsf application created in on the IBM Domino server?

- A. data\
- B. data\credential
- C. data\CredStore
- D. data\IBM_CredStore

Correct Answer: D

QUESTION 2

Simone enabled Quality of Service (QoS) on her IBM Domino 9.0 servers. Additionally, she configured it to restart Domino automatically and verified QoS is running on the server. Several nights later, a new application was installed and the server crashed overnight. When Simone arrived in the morning, the server was still down. What would cause this?

- A. She started the Domino server with the Java controller.
- B. The Domino server has a password on the server ID file.
- C. The QoS controller log lacked the correct template file assigned to it.
- D. The QOS_PROBE_TIMEOUT notes.ini variable is set less than the QOS_PROBE_INTERVAL variable.

Correct Answer: B

QUESTION 3

What are the requirements for enabling the Quality of Service (QoS) feature when starting the IBM Domino server?

- A. Add QOS_ENABLE=1 to the notes.ini file and then issue the tell qos resume command at the remote server console.
- B. The Domino server must be run as a service and the tell qos enable command must be issued at the remote server console.
- C. The Domino server must be run as an application and the QOS_ENABLE_PROBING=1 parameter must be added to the dcontroller.ini file.
- D. The Domino server must be run under the Java controller and the QOS_ENABLE=1 parameter must be added to the dcontroller.ini and notes.ini files.

Correct Answer: D

**QUESTION 4**

Jim enabled Quality of Service (QoS) on the IBM Domino server with values for the QOS_PROBE_INTERVAL and QOS_PROBE_TIMEOUT parameters of 2 minutes and 10 minutes respectively. After examining the qosctnlrtimestamp.out

file, Jim noticed messages indicating a probe timeout had occurred. He is concerned that QoS is not functioning properly because the Domino server was not restarted after the probe timeout.

Why was a server kill/restart not initiated?

- A. The Domino server has exceeded the default number of restarts.
- B. The Domino server was waiting for a load intensive compact operation to complete.
- C. The QOS_RESTART_TIMEOUT parameter must be set to a value greater than 10 minutes.
- D. By default, the QoS no kill option is enabled and sends an email notification to the administrator instead of restarting the server.

Correct Answer: B

QUESTION 5

When an IBM HTTP Server is installed on the same machine as an IBM Domino server, to which file is the parameter HTTPHSEnabled=1 added?

- A. TLS.ini
- B. notes.ini
- C. domino.conf
- D. Webconfig.xml

Correct Answer: B
