QUESTION 1

Craig has been experiencing some connectivity issues between his IBM Domino servers and has added the Log_Connections=1 setting to the notes.ini file. What does this setting do?

A. This setting is used to capture security settings.

B. This setting is used to capture replication activity.

C. This setting is used to capture TCP/IP connection data.

D. This setting is used to capture Domino Administration tasks.

Correct Answer: C

QUESTION 2

Antonio wants to configure SSO between the IBM Domino server and IBM WebSphere Application Server. What would he select to initialize the Web SSO Configuration with the shared secret key in the Web SSO Configuration document?

A. "Domino only"

B. "Import WebSphere LTPA keys"

C. "Import WebSphere LTPA and Domino keys"

D. Initialization of the Web SSO Configuration with a shared secret key is optional

Correct Answer: B

QUESTION 3

What is the Database Instance ID (DBIID) used for in IBM Domino?

A. It ensures that replica IDs are not duplicates.

B. It identifies design elements within a database.

C. It is used in replication to identify common databases.

D. It matches changes with a specific database for transaction logging.

Correct Answer: D

QUESTION 4

How would Sophia use the Quick Find feature?

A. She must be in the All Documents view in order to begin her search.

B. She must bring up the search bar and start typing the information she would like to find.

C. She must first create a customized view titled \\'Quick Find\\' then switch to that view and begin typing the information she would like to find.

D. She must start typing in any view and a dialog will appear. She can then choose which column to search and continue typing the information she would like to find.

Correct Answer: D

QUESTION 5

Katie has set up a Resource Reservations database and would like to allow certain users to create resource documents. How should she do this?

A. No further action is required. All users can create resources by default.

B. List the users\\' names in the access control list (ACL) of the Resource Reservations database.

C. List the users\\' names in the ACL of the Resource Reservations database and assign them the [ResourceAdmin] role.

D. List the users\\' names in the ACL of the Resource Reservations database and assign them the [CreateResource] role.

Correct Answer: D
