QUESTION 1

Sabrina needs to allow users to install device software for IBM Notes Traveler.

What will she need to provide to users to start the install process?

- A. Notes Traveler App Store
- B. URL of the lotustraveler.nsf
- C. IBM Domino mail server URL
- D. Notes Traveler server home page URL

Correct Answer: D

QUESTION 2

When an IBM Notes mail rule is enabled in a user's client to automatically copy incoming documents to a specified folder, the user can see the incoming email in their Inbox and in their specified folder. Why is the user unable to see the email in both the Inbox and the specified folder on the device?

- A. The user is not syncing the specified folder.
- B. Users cannot use mail rules with IBM Notes Traveler.
- C. Notes Traveler only synchronizes emails to one folder not two.
- D. The copied email is put into the specified folder, a pointer to the document displays in the Inbox, and Notes Traveler only synchronizes the document.

Correct Answer: D

QUESTION 3

When performing a capacity planning analysis for an IBM Notes Traveler High Availability environment with an enterprise database server, what does the administrator need to plan for a sustained number of?

- A. load balancers
- B. IBM Notes Traveler servers
- C. clustered database servers
- D. IOPS (Input/Output Operations Per Second)

Correct Answer: D

**QUESTION 4**

An administrator adds User A to an IBM Notes Traveler device settings document, which requires an alphanumeric password for Apple devices. The administrator then adds User A to Group A, which is listed in the Notes Traveler Policy Settings document. The Notes Traveler Policy Settings document requires Apple users to have a device password length of 6.

What behavior will User A experience on the device?

- A. User A will be required to have an alphanumeric password.
- B. User A will be required to have the device password length of 6 characters.
- C. User A will not be prompted for a password at all because two policies have been applied.
- D. User A will not be prompted because this security option is not supported for Apple devices.

Correct Answer: B

QUESTION 5

Luis has given Android devices to his team only to find that password monitoring is not working.

Which reason could be behind this problem?

- A. Devices are running Android 1.x.
- B. He must also deploy IBM Traveler Companion.
- C. Password monitoring is only supported on iOS.
- D. Password monitoring is supported only when running against an IBM DB2 server.

Correct Answer: A
