**QUESTION 1**

Tim is configuring his IBM Notes Traveler server to use an enterprise database. The Traveler task is reporting an error that the JDBC jar cannot be found or started during server startup. Tim has already validated the JDBC jar file location is correctly defined in the notes.ini.

What could be preventing the load of the driver?

- A. Tim failed to configure the JVM security to allow the jar to be loaded.
- B. Tim failed to build a trusted Program document in the lotustraveler.nsf.
- C. Tim failed to update the java.security file to allow the JDBC Jar to be loaded.
- D. Tim failed to update the jdbc.security file in the IBM Domino server data directory to include the path to the JDBC jar file.

Correct Answer: A

---

**QUESTION 2**

How can a new additional server be added to the IBM Notes Traveler server pool?

- A. You cannot as all pool members must be defined at initial install.
- B. Install a stand-alone server and then configure this to use the enterprise database.
- C. Install a Notes Traveler server into the server pool using the "Install to server pool" option.
- D. Install a Notes Traveler server into the server pool by setting NTS\_NEW\_SERVER\_POOL\_MEMBER to true in the notes.ini.

Correct Answer: B

---

**QUESTION 3**

Charles is using the tell traveler PMR command at the server console to provide data to IBM Support. Which statement describes what the command does?

- A. sends only the device detail information to IBM Support
- B. sends only the Notes Traveler server configuration files to IBM Support
- C. allows Charles to reference his open PMR number and provide feedback to IBM Support
- D. Creates a systemdump file, creates a log file collection, and automatically uploads it to IBM Support.

Correct Answer: D

#### QUESTION 4

Which statement is true of the IBM Notes Traveler Android application?

- A. The Notes Traveler application does not support reading encrypted messages from the Android device.
- B. In order to read encrypted IBM Notes email, the user must use the Notes Traveler Companion application.
- C. The Notes Traveler application can sync encrypted Notes mail messages if the Notes Traveler server has access to the user's notes.id.
- D. The Notes Traveler server does not need to be able to access the user's notes.id file in order to synchronize encrypted Notes mail.

Correct Answer: C

---

#### QUESTION 5

In which way does the IBM Notes Traveler install modify the notes.ini ServerTasks line?

- A. adds the Traveler task
- B. adds the Traveler and Ispy tasks
- C. removes the HTTP task and adds the Traveler task
- D. adds the Traveler task and removes the StartJava task

Correct Answer: C
