**QUESTION 1**

Joan is adding functionality to a traditional web application her company uses. She would like to use the NotesDatabase JavaScript class to access data from another database on her web page. What does Joan need to do to be able to use this class on her web page?

- A. In the JS Header of the page, Joan must insert the JavaScript class as a resource.
- B. Joan needs to enable the '\\Use JavaScript when generating pages\\' database property.
- C. The class is available by default so Joan doesn\\'t need to perform any additional steps.
- D. Joan cannot use this class since it\\'s server-side JavaScript which can only be used on XPages.

Correct Answer: D

QUESTION 2
