Correct Answer: BE

---

#### QUESTION 5

Earl would like to access his mail file locally versus on his mail server. He is considering creating a local replica or managed mail replica for his mail file. Which benefit does Earl gain if he uses managed mail replica instead of local replica?

- A. The managed replica routes mail directly to the server's mail.box.
- B. If the managed replica becomes corrupt, it will be deleted and recreated automatically.
- C. The managed replica will use the server replica's full-text index instead of having one locally created.
- D. A managed replica will notify Earl when new mail arrives, but he'll have to replicate manually or on schedule.

Correct Answer: B
