**QUESTION 1**

The marketing department at Acme Marketing uses the Press Release authoring template to create press releases. Staff often forget to include the contact email address for the author of the press release.

How can Bob, the web content developer, ensure that the authors always include a contact email address?

- A. In the properties for the contact email element, select the Identify this as a required field check box.
- B. Add the appropriate validation JSP component to each element in the Identify this as a required field.
- C. Select the Require input for all fields check box in the first workflow stage for this type of content.
- D. Create a workflow stage and assign reviewers of the content. The reviewers are responsible for rejecting content that does not include an email address.

Correct Answer: A

QUESTION 2

Tony has created the following categories within IBM Web Content Manager: Article > Practice Management > Tech Article > Practice Management > Finance He now wants to create a menu that returns results for all content items that use the News authoring template and all Categories under Article > Practice Management.

Correct Answer: B

QUESTION 3

Janet is a content creator. She cannot perform the Restart Workflow action for a published item that she created. Which of the following options best describes why this is occurring?

A. She is not an administrator; only an administrator can restart the workflow.

B. She does not have Approve access to the content item.

C. She has the content item open in Read mode.

D. Restart Workflow is not a valid action for a published content item.

Correct Answer: B

QUESTION 4

The AT Printer Corp is a manufacturer of computer printers. They are building a new website using IBM Web Content Manager. The site contains pages that describes each of their product lines.

When content creators are creating a product content item, they are required to include one of five preformatted company slogans as a part of the content.

Which of the following actions can Jim, a developer, do to facilitate this requirement easily?

- A. Jim creates an authoring template and adds all five slogans as HTML components to the authoring template. The HTML components are then referenced in an Option Selection element on the authoring template.
- B. Jim first creates an Option Selection component in the Component library with all five slogans. Jim then adds this Option Selection component to the authoring template using Manage Elements.
- C. Jim gives content creators the Contributor role on the authoring template. Content Creators can then use Manage Elements to add a new field to each content item for the slogan.
- D. Jim first creates five HTML components in the Component library; one for each slogan. Jim can add a Component Reference element to the authoring template.

Correct Answer: D

QUESTION 5

Which of the following lists provides the correct set of tasks to perform to integrate IBM WebSphere Portal Search into a stand-alone (non-WebSphere Portal) website?

- A. Create a Search Collection in WebSphere Portal Search. Mark all relevant site areas searchable. Create a Search Form. Create a Search component for displaying results.
- B. Create a Search Collection in WebSphere Portal Search. Mark all relevant site areas searchable. Configure and deploy the Search Center for users to input search criteria. Create a Search component for displaying results.
- C. Create a Search Collection in WebSphere Portal Search. Mark all relevant site areas searchable. Create a Search component for displaying results.
- D. Create a Search Collection in WebSphere Portal Search. Mark all relevant site areas searchable. Configure and deploy the Search Center for users to input search criteria. Configure and deploy the Search and Browse JSP for displaying results.

Correct Answer: A
