**QUESTION 1**

Janet uses Domino Designer's Dynamic Help feature to clarify something. What kind of help will she get?

- A. An animated, talking icon that offers to assist her.
- B. A wizard that follows a support tree to narrow down the answer to her question.
- C. A personalized search interface that remembers all of her previous searches and their results.
- D. A context-sensitive help view that constantly updates a list of possible relevant topics based on what she's doing.

Correct Answer: D

QUESTION 2

Olivia is writing a Discussion application using XPages. She added a button on her main topic XPage to create a response document for this discussion. What should she do to generate the response document?

- A. Add a Create New Document simple action to the form QuerySave event
- B. Add a Create New Document simple action to the button onclick event
- C. Add a Create Response Document simple action to the button onclick event
- D. Add a Create Response Document simple action to the form QuerySave event

Correct Answer: C

QUESTION 3

Abbas has imported the screen.css stylesheet into his application. He has discovered that he needs to edit the properties of some of the classes in the CSS. What steps can he follow to make the needed changes and save the CSS changes within the application?

- A. From the application navigator in Designer, expand Resources and expand Style Sheets. Double-click screen.css to use the built-in CSS editor.
- B. From the application navigator in Designer, expand Resources and expand Style Sheets. Click screen.css and in the Outline view select a class to use the built-in CSS editor.
- C. From the application navigator in Designer, expand Resources and double-click Style Sheets. Select screen.css in the Design pane. From the Design tab of the Properties view, double-click a CSS class to edit its properties.
- D. From the application navigator in Designer, expand Resources and double-click Style Sheets. Select screen.css in the Design pane. From the Web Properties tab of the Properties view, double-click a CSS class to edit its properties.

Correct Answer: A

QUESTION 4

Josh has created an XPage that contains a view container and a button to delete selected documents using a Simple Action. His boss has asked him to modify the XPage button to give the user an opportunity to cancel the delete action. What can Josh do to fulfill this requirement?

- A. In the Validation tab of the XPage properties, Josh must enter a Validation message.
- B. In the Delete Selected Documents dialog, Josh must enter a value in the Confirmation text field.
- C. Josh cannot do this with one simple action. He must use a Confirm Action within an Action Group.
- D. In the view container properties, Josh must enable the Delete Selected Documents Confirmation option.

Correct Answer: B

QUESTION 5

Darren is working with the Outline view on a new XPage. He drags a button control so that it is above an edit box control. What effect does this have on the XPage in the Design editor?

- A. The button control will move above and to the left of edit box control.
- B. There will be no effect until Darren saves the Xpage, then the button control will move above and to the left of edit box control.
- C. There will be no effect until Darren clicks the Synchronize Navigator with Editor tab in the application navigator, then the button control will move above and to the left of edit box control.
- D. There will be no effect until Darren clicks the Synchronize Navigator with Editor tab in the Outline view, then the button control will move above and to the left of edit box control.

Correct Answer: A
