**QUESTION 1**

Susan wants to populate a field in the Inventory form so that when a user composes a document they can select from a dialog list of products.

Which @function can she use to look up to an Inventory view within the same database?

- A. @DbLookup
- B. @DbTitle
- C. @DbColumn
- D. @DbName

Correct Answer: C

QUESTION 2

Menno has hidden the design of a database and finds out later that most of the design elements have the "prohibit design refresh or replace to modify this element" flag set.

How can he undo this?

- A. He cannot; hidden design is hidden forever.
- B. He can simply replace the design with a blank template, and then replace again with the corrected template.
- C. He needs to go into the design and untag each and every element manually, and then simply replace the design with the updated (new) template once more to update with the last changed.
- D. He needs to create an agent that uses the LotusScript Design classes to remove every design element in the database , and afterward use the corrected template to replace the whole design once more.

Correct Answer: D

QUESTION 3

Review the formula below, assuming that the Author field contains the following:

Richard Clarke/Meadowlands/ACME @Left(@Name([CN]; Author);" ")

Which one of the following will the formula produce? (Note: The substring portion of the @Left statement contains a single space.)

- A. Richard Clarke
- B. Richard
- C. Clarke

D. Meadowlands

Correct Answer: B

QUESTION 4

Which one of the following can Monique include in a workflow application to allow users to manually forward documents to others?

- A. An action containing @DocForward
- B. An action containing @MailSend([Forward])
- C. An action containing @Command([MailForward])
- D. An action containing @MailSend, and a Forward To Field

Correct Answer: C

QUESTION 5

Julie wants to have a view action display in a custom pop-up menu when the right mouse button is clicked.

How can she do this?

- A. Set the Action bar to "Include in right mouse button menu".
- B. Set the Action button to "Include in right mouse button menu".
- C. Set the database property to "Include actions in right mouse button menu".
- D. Set the view property to "Include actions in right mouse button menu".

Correct Answer: B
