**QUESTION 1**

Sara's application needs to use the same graphic in several forms. When she designed the application, she pasted the graphic into each form. However, when she views documents that were created with these forms, the browser reacts very slowly.

What should Sara do to correct this problem?

- A. Remove the graphics from the forms.
- B. Convert the graphic format to a TIFF and paste it back into the forms.
- C. Place the graphic in the database as an image resource and reference the image resource in all related forms.
- D. Place the graphic file on the server in the graphics directory and use pass-through HTML to reference the graphic.

Correct Answer: C

---

**QUESTION 2**

Which one of the following contains data types stored as summary data by default?

- A. All data types are stored in the summary buffer
- B. Rich text, file attachments, embedded OLE objects
- C. Text, text lists, rich text
- D. Text, number, date/time, reader names

Correct Answer: D

---

**QUESTION 3**

When Eduardo tried to save a document, he got the following error message: Incorrect data type for operator or @Function: Text Expected.

Which one of the following did he most likely do to cause this to happen?

- A. He combined a text and a time field in a formula.
- B. He neglected to place a formula in a validation event.
- C. He neglected to place a formula in a translation event.
- D. He entered text in a number field.

Correct Answer: A

---

**QUESTION 4**

In the past, Lloyd has copied an existing application if he needed to create a new application. This time, however, Lloyd wants to create a new application on his own hard drive, and he does not want the application to include any design elements from existing applications.

How can he do this?

- A. From the menu bar, select File > Application > New. Leave the Server option set to "Local", and ensure that the Template option is set to "Blank".
- B. From the menu bar, select File > Application > New. Leave the Server option set to "Local", and specify "\_blank.nsf" for the new application's filename.
- C. From the menu bar, select File > Application > New. Leave the Server option set to "Local", and specify "\_blank.nsf" for the new application's filename. Ensure that the Template option is set to "-Default-".
- D. From the menu bar, select File > Application > New. Specify "\_blank.nsf" for the new application's filename.

Correct Answer: A

---

**QUESTION 5**

Cindy wants to edit her style sheet resource using a third-party tool. Which one of the following should Cindy do?

- A. From the Resources>Style Sheets view, select the style sheet and choose Open With, then identify her preferred editor.
- B. From the Resources>Style Sheets view, select the style sheet and choose Open With>External Editor, then identify her preferred editor.
- C. From the Resources>Style Sheets view, select the style sheet and choose Open With>Thirdparty Tool, then identify her preferred editor.
- D. From the Resources>Style Sheets view, select the style sheet and choose Export to save the style sheet to the file system, then open it in her preferred editor. After making her changes, she will need to choose Sync to bring the changes into the application.

Correct Answer: B
