### QUESTION 1

Cheryle would like to have access to her mail file while she is traveling and disconnected from the network. Once she arrives at her destination, she wants to connect to the network and synchronize her mail file updates with the server version of her mail file.

How can she accomplish this?

- A. Create a local replica of her mail file.
- B. Create a local synchronized copy of her mail life.
- C. Create a local copy of her mail file.
- D. Create a local mirror copy of her mail file.

Correct Answer: A

---

### QUESTION 2

Olga wants to have one action on the Video form that will give the options to Print, Save, and Exit the document when it is clicked.

In which one of the following ways can she accomplish this?

- A. Use action buttons within an Outline control in a hidden frame to present "twisties".
- B. Layer the actions in the Action menu.
- C. Use Hide/when formulas along with a database profile field setting to display "toolbars" of icons.
- D. Create a parent action with programmable subactions.

Correct Answer: D

---

### QUESTION 3

Muriel has created a view that shows the current year's reported sales in the Sales Tracking application. She would like to give her end users the ability to sort on the customer, region, and sales manager columns.

How would she accomplish this?

- A. Set the "Allow custom sorting" option for the view.
- B. Set each column's Sort option to Descending.
- C. Set the "Click on column header to sort" value to Custom for all three columns.
- D. Set the "Click on column header to sort" value to Both for all three columns.

Correct Answer: D

---

#### QUESTION 4

Susan wants to populate a field in the Inventory form so that when a user composes a document they can select from a dialog list of products.

Which @function can she use to look up to an Inventory view within the same database?

- A. @DbLookup
- B. @DbTitle
- C. @DbColumn
- D. @DbName

Correct Answer: C

---

#### QUESTION 5

Melissa has created a default outline in her application and wants to display specific outline entries to Web users.

How can she do this task?

- A. Select or clear the "Hide entry from Web browsers" check box for the Outline entry.
- B. Use Hide-when formulas on the page where the outline is embedded.
- C. Surround outline entries with HTML tags to make them visible to Web users.
- D. Create a separate outline for Web users.

Correct Answer: A
