**QUESTION 1**

What utility would be used to gather the required version information for Content Collector and components when opening a support request?

- A. Content Collector trace logs
- B. Component Version Report tool
- C. Content Collector version configuration file
- D. Content Collector Configuration Manager version header information

Correct Answer: B

QUESTION 2

You want to use ICC to interactively archive Mails from Lotus Notes User Mailboxes into CM8 for further processing within a CM8 based application, and the ability to search for and restore the archived objects into the user's mailbox. Which component does NOT need to be installed?

- A. The ICC Web application component.
- B. The ICC CM8 Text Indexer component.
- C. The ICC Lotus Domino server plug-in component.
- D. The ICC Lotus Notes Client extension component.

Correct Answer: C

QUESTION 3

When are Blacklist entries automatically deleted?

- A. When the document is modified.
- B. When the document processes successfully.
- C. When the document reaches the expiration date.
- D. When the document is removed from the mailbox.

Correct Answer: B

QUESTION 4

In a scaled-out ICC environment, if the acting primary node expires, what happens to activate a new primary node?

- A. The ICCNode Windows service must be started on one of the secondary nodes.
- B. Nothing, the system stops processing until the primary node is brought back online.
- C. The first secondary node that realizes this situation within the next two database synchronizations will become the active primary node.
- D. In the Configuration Manager, General Settings tab, the configuration for the primary node server must be updated with the extension nodeserver information.

Correct Answer: C

QUESTION 5

In a Domino environment, the user ID used by IBM Content Collector to access and process the mailboxes and databases must minimally have which one of the following?

- A. Editor access with additional privileges to create personal folders and views, create shared folders and views, and replicate or copy documents.
- B. Manager access with additional privileges to create personal folders and views, create shared folders and views, and replicate or copy documents.
- C. Editor access with additional privileges to delete documents, create personal folders and views, create shared folders and views, and replicate or copy documents.
- D. Manager access with additional privileges to delete documents, create personal folders and views, create shared folders and views, and replicate or copy documents.

Correct Answer: C
