QUESTION 1

What is the default security setting for a page?

- A. Owner = View; Authorized Users = Edit.
- B. Default to Owner and User having Edit access.
- C. Owner = Administrator; Authorized Users = View.
- D. Default security is inherited from the space in which it is contained.

Correct Answer: D

QUESTION 2

Which two components are optional add-on licenses with the IBM Case Manager core product offering? (Choose two.)

- A. IBM Forms
- B. IBM Case Analyzer
- C. IBM FileNet eForms
- D. Content Search Services
- E. WebSphere Process Server

Correct Answer: AE

QUESTION 3

Where does IBM FileNet Case Analyzer read data from?

- A. Content Engine event logs only.
- B. Process Engine event logs only.
- C. Both Process Engine and Content Engine event logs.
- D. Both Case Analyzer OLAP database and Content Engine event logs.

Correct Answer: C

QUESTION 4

Sol1 has been created in project area P1 by John. As a new requirement, Sol1 has to be now moved to project area P2. How can this be achieved?

- A. By assigning P1 Object Store to P2.
- B. By assigning John to project area P2.
- C. By using the IBM Case Manager Administration Client.
- D. By using the Move option on the Manage Solutions page of the IBM Case Manager Builder.

Correct Answer: C

QUESTION 5

A solution designer creates a custom page in Case Client. Before deploying the solution, he would like to configure the page to meet the following security requirements: 1. Prevent end users from changing the page layout. 2. Prevent end users from changing widget settings for widgets on the page. 3. Allow users to resize the widgets on the page. Which access rights should be configured by the solution designer?

- A. Grant Read and Write access rights to the custom page via the Process Configuration Console.
- B. Grant Edit access rights to the end users via Business Space Manager sharing action on the page.
- C. Grant View access rights to the end users via Business Space Manager sharing action on the page.
- D. Grant Full control ACL permissions to end users on the custom page in the Pages subfolder using FileNet Enterprise Manager.

Correct Answer: C
