**QUESTION 1**

Which of the following allows greatest flexibility in formatting but generally has the lowest interactivity with the users?

- A. Analysis
- B. Query
- C. Dashboards
- D. Managed Reports

Correct Answer: D

---

**QUESTION 2**

Which of the following statements is true about the Waterfall Approach?

- A. The five steps in the process are considered valid for BI software development projects.
- B. Each step is performed in sequence but you return to previous steps at specific points in the development cycle.
- C. It is designed so that requirements that are not discovered in the Analysis step will cascade out during the design phase.
- D. Project management tools no longer encourage the Waterfall Approach.

Correct Answer: A

---

**QUESTION 3**

Which of the following is correct regarding the processing of a PageDown high affinity request?

- A. The request is routed to the same process that served up the originating low affinity request if the process is available and if there is an available high affinity connection.
- B. The request is given priority and is always processed by the same process that served up the originating low affinity request.
- C. The request is load-balanced and is sent to any available dispatcher in the system.
- D. The request is automatically queued and is processed by the first available low affinity connection in the system.

Correct Answer: A

---

**QUESTION 4**

A user makes the following request: "I need to see the number of flights throughout the year that arrived or departed more than 15 minutes early or late by origin and destination airport, by carrier, and by time of day. I want to see if the

number of flights delayed is greater for large carriers or small carriers." Based on this request, the following metrics have been identified: Flight count, and minutes early or late. Large carriers operate significantly more flights than small carriers.

Which of the following additional metrics or calculations would provide the MOST value to the user?

- A. Average number of flights 15 minutes early or late
- B. Percentage of flights 15 minutes early or late
- C. Average minutes early or late
- D. Origin/Departure airport count

Correct Answer: B

---

#### QUESTION 5

Which of the following statements best describes the Iterative Approach of application development?

- A. A prototype solution is developed after the initial user interviews. This prototype is then used as a basis for refining specific design requirements.
- B. The design step is repeated multiple times before proceeding to the development step. Each pass through the design step further refines the eventual solution.
- C. The solution is developed and delivered to the users. After approximately 2 weeks, the users are interviewed for any missing requirements and any new requirements form the basis for the next iteration.
- D. A prototype is created that addresses 80 to 90% of the business requirements. This is demonstrated to the users and their feedback is used to refine the prototype in subsequent iterations.

Correct Answer: D
