QUESTION 1

What indicates that the physical installation of a TS7720 Virtualization Engine is complete and available to the customer?

A. HOD/IOCP is updated

B. DF/SMS ACS routines are coded and tested

C. Code 20-installed is written by the IBM SSR

D. All items on the implementation plan are completed

Correct Answer: C

QUESTION 2

What is limited by Performance Increments in the TS7700?

A. Host Read only

B. Host Write only

C. Host Read and Write

D. Host Read, Write and Grid Replication

Correct Answer: B

QUESTION 3

A customer has the requirement to store large amounts of archive data on native tape which will be accessed rarely, as well as a smaller amount of data where fast access is important. Which IBM Enterprise Tape function provides the flexibility to meet both requirements?

A. Speed Matching

B. Capacity Scaling

C. SkipSync / Virtual Backhitch

D. Media Re-Use over multiple Generations

Correct Answer: B

QUESTION 4

A customer is impressed by the cost savings shown in the IBM proposal to consolidate their tape infrastructure replacing Oracle 9840 and 9940 tape drives with TS1140. However they are concerned about replacing their 9840 drives as they have a specific workload which requires fast access to the data. What is the best response to this concern?

A. the 9840 does not provide fast access so there is no issue

B. the TS1140 has a faster data rate than the 9840 so it will provide faster access to first byte of data

C. instead of a specific drive type for the workload, using the IBM Economy Data Cartridge provides the required fast access

D. the newer drive technology in the TS1140 will fail less frequently than the 9840 so overall provide faster access capability

Correct Answer: C

QUESTION 5

In a single TS3500 library\\' with no other TS7700 or open systems drives, what is the minimum number of Model 007 controllers required to install the maximum number of drives supported in the TS3500 library?

A. 8 controllers with 96 drives attached

B. 8 controllers with 128 drives attached

C. 12 controllers with 192 drives attached

D. 16 controllers with 192 drives attached

Correct Answer: C
