QUESTION 1

What are four options in customizing the appearance of a report graph in the Graphic Configuration window? (Choose four.)

- A. graphic spans full width
- B. display run time
- C. draw thick lines
- D. use 3D bars
- E. font size
- F. type face

Correct Answer: ABCD

QUESTION 2

Workload analysis is a design-time activity that includes which four processes? (Choose four.)

- A. identifying the performance bottlenecks of the application
- B. identifying the workload to be simulated or emulated in the performance tests, in terms of number of actors or actor classes and actor profiles
- C. identifying the actors and actor characteristics to be simulated or emulated in the performance tests
- D. clarifying the objectives of performance testing and the use cases
- E. determining the performance measures and criteria
- F. identifying the quality of application architecture

Correct Answer: BCDE

QUESTION 3

Why should you keep notes when recording a performance test?

- A. to correlate recording activity with the recorded test
- B. to document the recording
- C. to create comments for the test
- D. to record unusual application behavior

Correct Answer: A

QUESTION 4

What happens to an unused reference?

- A. It will not be used by any later request in the test.
- B. It will be automatically reset at the end of each test run.
- C. It will be automatically reset when the test is saved.
- D. It will become used if it matches a string in a later request.

Correct Answer: A

QUESTION 5
