D. 1. In the Graph view, right-click on the name of the input message

2. Select New -> Message

3. Provide the name of the new message and click OK

Correct Answer: B

QUESTION 4

A developer is building a JAX-WS Web service to be deployed on IBM Web Sphere Application Server V7.0. The service consumers are financial institutions with client applications using Microsoft .NET V3.5. The service will be used to retrieve image files and send them to the financial institutions.

What is the recommended approach to send the image files?

A. SOAP with Attachments

B. Direct Internet Message Encapsulation (DIME)

C. Message Transmission Optimization Mechanism (MTOM)

D. Message Handlers and the SOAP with Attachments API for Java (SAAJ)

Correct Answer: C

QUESTION 5

A developer using WebSphere Application Server Developer Tools has written a webapplication that is shared by multiple EAR projects.

Which statement is true if the developer deletes the web application?

A. All the references to the Web application are removed from the EAR, but only if the userselects to do that in the Delete Resources confirmation dialog.

B. All the references to the Web application are removed from the EAR projects only ifnone of the projects are deployed to aLiberty server.

C. The developer must remove the references to the web application from all the EAR projects before deleting the web application.

D. All the references to the Web application are removed from the EAR projects by default.

Correct Answer: D
