**QUESTION 1**

What are the features of actions?

- A. Actions define the next choices a user has in a specific change request step.
- B. Actions should not be confused with logical actions.
- C. Supports integration scenarios based on a Service Oriented Architecture (SOA) especially used WEB-Services,
- D. Customer-specific actions offer a simple way to streamline governance processes

Correct Answer: AB

QUESTION 2

What are the change request type determines?

- A. The workflow template
- B. The data model and the entity types
- C. Software Update Manager (SUM)
- D. SNOTE (Implementing notes to fix issues)

Correct Answer: AB

QUESTION 3

Which advantage does the rule-based workflow provide compared to the simple workflow? Please choose the correct answer.

- A. It can be combined with different workflow templates.
- B. It can be executed faster than the simple workflow.
- C. It works with easily maintainable decision tables and is highly adaptable to customer needs.
- D. It is pre-configured for dedicated SAP MDG domains and CANNOT be changed.

Correct Answer: C

QUESTION 4

What are the hints about defining governance scope?

- A. Governance scope determines the fields from the data model that can be edited by the MDG application.

- B. By deactivating or reactivating an entity, relationship, or attribute, you do not change any dictionary or database object; you change only the ability of MDG to edit the chosen object.
- C. When you take a field out of governance scope, it becomes read-only on the MDG UI and you may wish to remove it.
- D. You can use the customizing activity Import BC Set to Reset Governance Scope to set the governance scope to the EPH6 model which contains only identifying and descriptive data.
- E. None of the above.

Correct Answer: ABCD

QUESTION 5

What are the features of MDG communicator configuration?

- A. It includes a reference to an UIBB of the OVP that supplies the MDG Communicator at runtime with the information about the main entity.
- B. On a technical level, it creates a wire from this UIBB to the Change Request UIBB (using the same parameters as for other wires in the OVP).
- C. Add a reason for your change request type with the pattern b) SFZ## by adding them and specify a reason.
- D. Call transaction a) MDGIMG. Find under General Settings Process Modeling Change Requests Define Rejection Reasons for Change Requests

Correct Answer: AB
