**QUESTION 1**

Your sales representative wants to enter a discount that should only be entered manually within the pricing screen of a sales order in addition to the conditions that were automatically determined.

In which of the following ways do you implement this business requirement? (Choose two)

- A. Ensure that the condition type exists in the pricing procedure used in the sales order.
- B. Mark the condition type within the pricing procedure as a manual condition.
- C. Assign an access sequence to the condition type.
- D. Maintain a condition record for the discount that should be entered manually.

Correct Answer: AB

---

**QUESTION 2**

When you create a new sales order, which master data is automatically copied to the sales order? (Choose two)

- A. The terms of payment from the sales area data of the bill-to party
- B. The terms of payment from the company code data
- C. The agreement on partial deliveries from the sales area data of the ship-to party
- D. The incoterms from the sales area data of the sold-to party

Correct Answer: CD

---

**QUESTION 3**

You have been asked to change a process so that during sales invoicing, any manually changed pricing elements in the pricing procedure for the sales document are copied from the sales order to the billing document unchanged, but other automatically determined conditions are re-determined.

Where is this behavior controlled?

- A. In the copy control at item level
- B. In the billing type
- C. In the condition type
- D. In the item category of the billing type

Correct Answer: A

---

#### QUESTION 4

According to the system there is no stock available, but you still receive a confirmed schedule line in the sales order.

What is the reason for this confirmation?

- A. The availability check that was carried out included a replenishment lead time in the scope of check.
- B. The system automatically searches other plants for inventory and transfers this inventory to the plant with zero inventory in the sales order.
- C. The availability check was carried out, and on saving, the system immediately rescheduled the sales order according to the customer priority.
- D. Inventory Management creates a stock transfer when the sales order is saved.

Correct Answer: A

---

#### QUESTION 5

You are asked to enter special shipping costs in delivery documents, which will then be charged to the customer on the invoice.

What must be done to fulfill this request? (Choose two)

- A. Maintain the Price Source field in copying control between the delivery and billing document at item level.
- B. A pricing procedure must be defined and assigned to the delivery type.
- C. Determine a suitable pricing procedure using the criteria sales area, delivery type, and customer pricing procedure.
- D. Ensure that sales prices and discounts are copied to the delivery.

Correct Answer: AB
