QUESTION 1

When a person hears the words being said to him/her, but does not receive the message of the words, it is called

- A. Reflective listening
- B. Judgmental listening
- C. Passive listening
- D. Directive listening

Correct Answer: C

QUESTION 2

Money is value. Having money when you need it is very important. Money can also be valuable when used wisely by knowing when to spend and when to conserve. Also, planning now for future expenses can be a plus to the company rather than a debit.

There are several ways to capitalize money and spending. Basically there is the single payment method that has a compound amount factor and a present worth factor. There is the uniform annual series that has a sinking fund factor, capital recovery factor and also the compound amount factor and present worth factor. At this point, we can assume money is worth 10%.

The following question requires your selection of CCC/CCE Scenario 7 (4.8.50.1.1) from the right side of your split screen, using the drop down menu, to reference during your response/choice of responses.

If the company needs to repay a loan of \$100,000 in 10 uniform annual payments, how much will each payment be?

- A. \$16,380
- B. \$16,578
- C. \$15,937
- D. \$16,273

Correct Answer: D

QUESTION 3

The goal of listening is to:

- A. Analyze what the speaker is saying
- B. Find out what is going on
- C. Have time to formulate your thoughts on the subject
- D. Improve communication

Correct Answer: D

QUESTION 4

A major theme park is expanding the existing facility over a five-year period. The design phase will be completed one year after the contract is awarded. Major engineering drawings will be finalized two years after the design contract is awarded and construction will begin three years after the award of the design contract. New, unique ride technology will be used and an estimate will need to be developed to identify these costs that have no historical data.

Which of the following methods are used for creating critical path schedules:

- A. Precedence diagram method
- B. Precedence and arrow diagram methods only
- C. Gantt chart (bar chart) method
- D. Arrow diagram method

Correct Answer: B

QUESTION 5

You have been hired as the cost engineer for a mechanical contractor and have been provided the following information:

Total budgeted hours	12,000
The planned project duration in days	130

Rules of credit are as follows:

Pipe received	5%
Hangers installed	10%
Pipe in place	30%
Welded	50%
Flushed	5%

The following question requires your selection of CCC/CCE Scenario 2 (2.3.50.1.2) from the right side of your split screen, using the drop down menu, to reference during your response/choice of responses.

10,278 hours have been expended to date. The CPI at this point in time is 0.93. SPI is 1.03. How many hours have been earned?

- A. 9,979
- B. 10,586
- C. 11,052

D. 9,559

Correct Answer: D
