**QUESTION 1**

When deploying a consumer gadget that incorporates speech recognition, where is the speech generally best processed, from a privacy by design perspective?

- A. Within the subject's jurisdiction
- B. On the remote server
- C. On the local device
- D. In the cloud

Correct Answer: C

QUESTION 2

What is the most important requirement to fulfill when transferring data out of an organization?

- A. Ensuring the organization sending the data controls how the data is tagged by the receiver.
- B. Ensuring the organization receiving the data performs a privacy impact assessment.
- C. Ensuring the commitments made to the data owner are followed.
- D. Extending the data retention schedule as needed.

Correct Answer: C

The most important requirement to fulfill when transferring data out of an organization is ensuring the commitments made to the data owner are followed. The data owner is the person who has provided their personal data to an organization for a specific purpose or consented to its collection. When transferring data out of an organization, such as sharing it with another entity or moving it across borders, it is essential that the organization respects the rights and expectations of the data owner and complies with any applicable laws or regulations. The other options are not requirements for transferring data out of an organization, but rather possible measures or considerations that may be relevant depending on the context or nature of the transfer.

QUESTION 3

Which of the following CANNOT be effectively determined during a code audit?

- A. Whether access control logic is recommended in all cases.
- B. Whether data is being incorrectly shared with a third-party.
- C. Whether consent is durably recorded in the case of a server crash.
- D. Whether the differential privacy implementation correctly anonymizes data.

Correct Answer: D

QUESTION 4

What is the main reason the Do Not Track (DNT) header is not acknowledged by more companies?

- A. Most web browsers incorporate the DNT feature.
- B. The financial penalties for violating DNT guidelines are too high.
- C. There is a lack of consensus about what the DNT header should mean.
- D. It has been difficult to solve the technological challenges surrounding DNT.

Correct Answer: C
