QUESTION 1

Which can you do with the Jenkins Install Wizard? Choose 3 answers

- A. Install a pre-defined set of recommended plugins.
- B. Install Jenkins without any extra plugins.
- C. Choose the version of Jenkins core to install.
- D. Manually select plugins to install from a set of predefined plugins.
- E. Install all existing open-source plugins for Jenkins.

Correct Answer: ABD

QUESTION 2

Pipelines often require access to protected resources such as servers, databases, and SCMs. Without using an external credentials manager, which of the following provides the most secure centralized mechanism for managing the "secrets" that Jenkins requires to login/authenticate (for example: keys, tokens, passwords)?

- A. Store the secrets on the Jenkins master using the Credentials plugin.
- B. Include the secrets in the home directory of the Jenkins agent account.
- C. Store the secrets required in the SCM alongside the application source code.
- D. Embed secrets into the build and deployment scripts invoked by the job.
- E. Store the secrets as Node Properties for each agent definition.

Correct Answer: A

QUESTION 3

What's an example of a cloud-based SCM?

- A. GitHub
- B. Atlassian BitBucket
- C. All of these
- D. AWS CodeCommit

Correct Answer: C

All of these options are cloud-based SCM providers.

QUESTION 4

How do you navigate to the Plugin Manager?

- A. There is no graphical Plugin Manager
- B. Dashboard Left Panel -> Manage Jenkins -> Manage Plugins
- C. Dashboard Left Panel -> Manage Jenkins -> Configure System -> Manage Plugins
- D. None of these

Correct Answer: B

This is the most common way to navigate to the Plugin Manager.

QUESTION 5

A Freestyle job is configured to execute concurrent builds, and to only build on a specific agent (agent A) that has 4 executors. You observe that 2 Instances of the job are currently building while several others are waiting in the build queue. Which of the following could explain why the builds are waiting in the build queue?

- A. There are not enough idle executors available on agent A.
- B. Changes were made to this job's configuration while this Job had builds in the build queue.
- C. Each build in the build queue must be manually attached to an available executor.
- D. The "Execute concurrent builds if necessary" option in the job configuration has reached its user-defined maximum.

Correct Answer: A
