**QUESTION 1**

Which enables you to use artifacts from a completed build in the workspace of the currently running build?

- A. Jenkins core
- B. Copy Artifact plugin.
- C. Rebuild plugin.
- D. ArtifactDeployer plugin.

Correct Answer: B

---

**QUESTION 2**

Which are true when installing new plugins? Choose 2 answers

- A. If you check the "Enable rollbacks when upgrading" box, future updates to an the plugin can easily be rolled back when necessary.
- B. The previous public release of a plugin is installed for reliability instead of Installing the most recent public release.
- C. Most plugins can be Installed without stopping and starting Jenkins.
- D. You must install all required and optional dependencies before Installing the plugin with the plugin manager.
- E. If you are running Jenkins under an HTTP proxy, you must configure HTTP proxy access for the plugin manager before Installing or updating plugins.

Correct Answer: BC

---

**QUESTION 3**

On a single Jenkins master you have a folder named "Project1 ". In this folder contains three jobs: "job master", "job develop", and "Job edge". The job "job master" is the latest built project and is in a success state while the two other jobs are in failing state. Which statement is true about the folder "Project1"?

- A. It reports its health as "failed" ("Raining Cloud" weather icon), because that is the "worst health of the sub-items".
- B. It reports its health as "success" ("Sunny" weather icon), because that is the health of the "latest built item."
- C. It must be configured with a dedicated "Health Metric" setting before it can report its health with weather icons.
- D. It does not report its health on the folder level; only Jobs report health.

Correct Answer: A

---

**QUESTION 4**

What happens to all associated configuration metadata (on jobs, builds, etc) after a plugin is uninstalled?

- A. Nothing happens. The data remains on the persisted form of the configuration until the next save of that Rem (job, etc.).
- B. It is deleted on the next restart of Jenkins.
- C. It is deleted on the next configuration reload.
- D. It is deleted immediately.
- E. The data is backed up and then deleted from the live configuration.

Correct Answer: A

---

#### QUESTION 5

Which of the following build steps is most appropriate to use to publish the artifact files of a build?

- A. Copy artifact files to the agent file system
- B. Upload the artifact files to a central artifact repository.
- C. Stash artifact files.
- D. Commit the artifact files to git.

Correct Answer: B
