**QUESTION 1**

Which of the following build steps is most appropriate to use to publish the artifact files of a build?

- A. Copy artifact files to the agent file system
- B. Upload the artifact files to a central artifact repository.
- C. Stash artifact files.
- D. Commit the artifact files to git.

Correct Answer: B

QUESTION 2

What are the main advantages of using webhooks/post commit hooks from your Source Code Management system to trigger your Jenkins project rather than using SCM polling? Choose 2

- A. Builds are started on a defined a on schedule.
- B. Avoid unnecessary overhead from polling.
- C. Builds are started immediately after changes are committed.
- D. The entire repository is scanned so no commits are missed.

Correct Answer: BC

QUESTION 3

Which of the following practices are recommended for a Declarative Pipeline? Choose 3 answers

- A. Use the pipeline DSL to implement intricate networking and computational tasks that your Pipeline needs to do.
- B. Simplify the test/debug process and improve performance of your pipeline by defining separate steps for each important task performed by the pipeline.
- C. Encapsulate common Jenkins logic within shared libraries when leveraging Declarative Pipelines.
- D. Call scripts written in Shell, Batch, Groovy, or Python to implement any complex logic required for your pipeline; call these scripts as steps in your pipeline.
- E. Use tool such as Maven, Gradle, NPM, Ant, and Make to define most of the build work; call these executables as steps in your pipeline.

Correct Answer: BCE

QUESTION 4

In Jenkins, a trigger commonly refers to a mechanism that automatically_____.

- A. updates plugins
- B. starts the build of a job
- C. sends notification once the build is completed
- D. detects code changes in the repository

Correct Answer: B

QUESTION 5

What is the default directory where a build takes place?

- A. The Workspace directory.
- B. The Builds directory in the Job.
- C. The JENKINS_HOME directory.
- D. The user\\s home directory.

Correct Answer: A
