QUESTION 1

Universal Containers (UC) wants to use an Option Constraint in a bundle that requires a user to sell Product Option X before they can sell Product Option Y. Sales has indicated that this would be too restrictive, and they want to be able to select Product Option Y as long as Product Option X is an existing asset on the account. UC has approved this change. What should the Admin do to address this change?

A. List accounts with assets in the "Option Constraint Group" field.

B. Look up the account with the assets on the "Account" field.

C. Mark the "Check Prior Purchases" checkbox as TRUE.

D. Use a Product Rule instead of an Option Constraint.

Correct Answer: C

QUESTION 2

An Admin has created a Configuration Attribute on the Product A bundle, and now needs an Identical Configuration Attribute on the Product B bundle that saves its value into the same Quote Line field. Which tasks should the Admin complete to meet this business requirement?

A. Check "Apply to Product Options" on the existing Configuration Attribute, then make Product B an option of Product A.

B. Create a second Configuration Attribute on Product B, no further administration required.

C. Create a second Configured Product record for Product B on the existing Configuration Attribute.

D. Create a second Product Option field with identical values, then create a second Configuration Attribute on Product B.

Correct Answer: B

QUESTION 3

Universal Containers has a custom picklist filed with three values on their products. The Admin would like to create a Dynamic Bundle to display products if the picklist value matches that of a Configurations Attribute. How should the Admin create Filter Product Rules to meet the business requirement?

A. Create three rules, each with two conditions that compare the configuration attribute with a static value and the product field.

B. Create one rule with three conditions, each that compares the configuration attribute filed with a static value.

C. Create three rules, each with one condition that compares the product field with the Configuration attribute filed.

D. Create one rule with one condition that compares the product field with the configuration attribute filed.

Correct Answer: B

QUESTION 4

Universal Containers allows clients to negotiate a discount for Product A until a specified date up contract activation. Which three fields on the Contracted Price record should be configured to satisfy this requirement?

A. Product

B. Contract

C. Expiration Date

D. Discount

E. Effective Date

Correct Answer: ACD

QUESTION 5

Universal Containers wants line items to be organized into pre-defined groups on the output document. The name of these pre-defined groups needs to be displayed above each group in the output to identify it. Which two ways can an Admin meet this requirement?

A. Set the Group field on the Line Items type of Template Content record.

B. Create Solution Groups, allowing users to group products on the Quote Line Editor.

C. Set the Group Filed field on the Quote Template or Template Section records.

D. New Quote Group field on each Product record with the associated group name Set the New Quote Group field on each Product record with the associated group name.

Correct Answer: CD
