QUESTION 1

Which statement describes the term "Statement Coverage"?

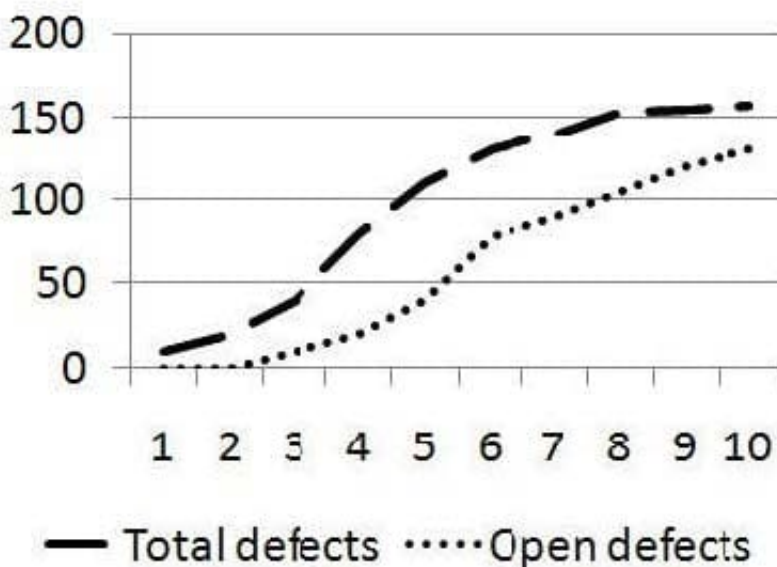

- A. A tool used to execute all the statements of the source code.
- B. A method by which complex statements of the source code are completely executed.
- C. A metric for the ratio of statements in a source code that are executed at least once during the test.
- D. A test technique that generates a minimal set of tests cases guaranteed to exercise all the lines in source code.

Correct Answer: C

QUESTION 2

Given is the following defect removal chart reported at the end of system testing - showing total defects detected and closed defects (fixed and successfully retested). A number of open defects are classified as critical. All tests have been executed.

Based on the chart above, what is the most appropriate next test phase?

- A. Acceptance testing to verify the business process
- B. Acceptance testing to verify operational requirements
- C. Requirements testing as part of testing regulatory compliance
- D. Another system test cycle to verify defect resolution

Correct Answer: D Testlet 1

MIX QUESTIONS

QUESTION 3
