**QUESTION 1**

Which of the following is the odd one out..?

- A. White box
- B. Glass box
- C. Structural
- D. Functional

Correct Answer: D

---

**QUESTION 2**

Which of the following test design techniques is classified as a structure-based (white box) technique?

- A. Exploratory testing
- B. Decision table testing
- C. State transition testing
- D. Statement testing

Correct Answer: D

---

**QUESTION 3**

Risks should be constantly reviewed. Given the current situation, which one of the following factors is most likely to lead to a revised view of product risk?

- A. The concerns over the user interface may lead to changes to the interface which cannot be implemented by development in time for the second test iteration.
- B. The concerns over the user interface raises the likelihood of a risk in that area and increases the amount of test effort needed for the user interface, thereby limiting the test effort available for other parts of the test management tool.
- C. The delivery of the application without the interface changes may upset the user community.
- D. The method used for test estimation is not accurate enough and hence the money spent on testing exceeded its budget.

Correct Answer: B

---

**QUESTION 4**

A booking system for a city bus service prices its fares according to the time of travel:

Peak-time tariff starts at 0600 and finishes at 1000 am

Off-peak tariff applied during all other times of services

The bus service does not operate between 2300 and the start of the next day's peak service

Note that all times mentioned are inclusive.

When applying the equivalence partitioning test design technique, which of the following options shows test case inputs that each fall into a different equivalence partition?

A. 0600; 1000; 1200

B. 1001; 1300; 2259

C. 0100; 0800; 2200

D. 2400, 1000, 2301

Correct Answer: B

---

#### QUESTION 5

Which list of levels of tester independence is in the correct order, starting with the most independent first?

A. Tests designed by the author; tests designed by another member of the development team; tests designed by someone from a different company.

B. Tests designed by someone from a different department within the company; tests designed by the author; tests designed by someone from a different company.

C. Tests designed by someone from a different company; tests designed by someone from a different department within the company; tests designed by another member of the development team.

D. Tests designed by someone from a different department within the company; tests designed by someone from a different company; tests designed by the author.

Correct Answer: C
