QUESTION 1

A cloud administrator is setting up a DR site on a different zone of the same CSP. The application servers are replicated using the VM replication, and the database replication is set up using log shipping. Upon testing the DR site, the application servers are unable to access the database servers. The administrator has verified the systems are running and are accessible from the CSP portal.

Which of the following should the administrator do to fix this issue?

A. Change the database application IP

B. Create a database cluster between the primary site and the DR site

C. Update the connection string

D. Edit the DNS record at the DR site for the application servers

Correct Answer: C

QUESTION 2

A company just successfully completed a DR test and is ready to shut down its DR site and resume normal operations. Which of the following actions should the cloud administrator take FIRST?

A. Initiate a failover

B. Restore backups

C. Configure the network

D. Perform a failback

Correct Answer: A

QUESTION 3

Which of the following is relevant to capacity planning in a SaaS environment?

A. Licensing

B. A hypervisor

C. Clustering

D. Scalability

Correct Answer: D

QUESTION 4

A company has deployed a new cloud solution and is required to meet security compliance.

Which of the following will MOST likely be executed in the cloud solution to meet security requirements?

A. Performance testing

B. Regression testing

C. Vulnerability testing

D. Usability testing

Correct Answer: C

QUESTION 5

A systems administrator is troubleshooting network throughput issues following a deployment. The network is currently being overwhelmed by the amount of traffic between the database and the web servers in the environment. Which of the following should the administrator do to resolve this issue?

A. Set up affinity rules to keep web and database servers on the same hypervisor

B. Enable jumbo frames on the gateway

C. Move the web and database servers onto the same VXLAN

D. Move the servers onto thick-provisioned storage

Correct Answer: B
