**QUESTION 1**

In OpenManage Server Administrator, what does a red X indicate?

- A. The component is about to fail.
- B. The component has a critical (failure) condition.
- C. The component has not been installed.
- D. The component has been removed.

Correct Answer: B

---

**QUESTION 2**

You are configuring network teaming on a PowerEdge server. The server has Windows 2000 installed and you do not know what network adapters are in the system. Without physically opening the chassis, what are two ways to see which network adapters are installed using the operating system? (Choose two.)

- A. type ifconfig -a at a command prompt; on the description line, the manufacturer and device type will be named
- B. right-click Network Neighborhood, select Properties, double-click Internet Protocol (TCP/IP), and view protocol-bound adapters
- C. type ipconfig /all at the command prompt; on the description line, the manufacturer and device type will be named
- D. right-click My Computer, select Manage, left-click Device Manager, expand Network Adapters, and view installed adapters

Correct Answer: CD

---

**QUESTION 3**

Which three statements are true about installing the Intel drivers and utilities that allow teaming in Windows 2000? (Choose three.)

- A. If you install the adapters after you have installed the OS, you can get the ProSet Utility from the Intel ProSet Utility CD.
- B. You must install the ProSet Utility.
- C. You must install the Intel driver using floppy diskettes.
- D. If you install the adapters after you have installed the OS, you can get the drivers from the Intel Network Drivers CD.
- E. Loading Windows 2000 using the DSA CD-ROM loads the drivers and ProSet Utility.

Correct Answer: BDE

---

#### QUESTION 4

If there is a loss of power redundancy on your PowerEdge server, in which three ways can Dell OpenManage IT Assistant report this? (Choose three.)

- A. Dell IT Assistant sends an alert to Dell OpenManage Server Administrator.
- B. The status panel for that system indicates which power supply failed.
- C. An SNMP trap can be logged in the OpenManage IT Assistant.
- D. Systems Status is marked as "Warning" in OpenManage IT Assistant.

Correct Answer: BCD

---

#### QUESTION 5

Which utility allows you to create, delete, and manage containers in the Adaptec PERC BIOS Utility?

- A. SCSI utilities
- B. Disk utilities
- C. RAID Configuration Utility
- D. Container Configuration Utility

Correct Answer: D
